# Manual My Data

Version 1.9

## Inhalt

- 1. Edit own data ..... 2
- 2. Login for more applications ..... 2

Im Geschäftsbereich des

Bundesministerium  
für Gesundheit

## 1. Edit own data

In the area "My data" your own data like address, E-Mail address or password can be changed and the certificate can be up-loaded or renewed at any time (see [Manual certificate](#)).

## 2. Login for more applications

Furthermore, you can use the navigation point "Sign for further applications" to apply for permission for further applications.

If you are main user, you can choose from all the applications available. The Administration of the responsible authorities responsible will be notified by mail and provide you with the authorization / role.

If you are user, you can choose from the applications for which your main user has a loading authorization.

Applications for which you already have access authorization are marked. If you no longer wish to use one of these applications, uncheck.

Your user administration will be informed by mail about your request and activates or deactivates the selected options.
